

**Aleutian Islands Ecosystem Team Meeting**  
September 26-27, 2006  
NMML Conference Room (Room 2039), Building 4, AFSC, Seattle, WA

**Draft Agenda**

**Tuesday, September 26, 9am-4:30pm**

Introduction/Context

- How did we get here?
- What is the Team's job?
- How will the process work (SSC/Council/Committee/Team feedback loops)
- What are the Council's parameters/guidelines?
  - AI ecosystem status/synthesis of information
  - identify indicators
  - focal point to develop ecosystem models
  - identify sources of uncertainty/research needs
  - assist Council in setting management goals and understanding cumulative effects

Structuring the FEP

- What to include?
  - Guidance on FEP content
  - Other FEP examples
- Strawman TOC
- How do we get at the key elements
  - cumulative viewpoint
  - reconciling conflicting goals
  - assessment of uncertainty
  - focal point for ecosystem modeling
  - interface for ecosystem science in management decisionmaking
  - humans as part of the ecosystem
- Thinking ahead
  - research plan?
  - coordination with other agencies (e.g., through AMEF); building block for integrated management plan?
- Writing assignments

**Wednesday, September 27, 8:30am-12:30pm**

Planning for the next worksession

- focus on identifying indicators?
- discussion of management goals, what do we need from Council
- what do we need to do in advance to make next meeting productive
- schedule for rest of process, meeting dates
